

Notifications & Reminder Specification

Student OS Documentation — File 12

Notification Types

Class reminder

Assignment reminder

Exam reminder

Attendance warning

Task reminder

Daily summary

System

Timing

Support 5 minutes, 30 minutes, 1 day and custom reminder timings where relevant.

Lifecycle

Created → scheduled → delivered/displayed → read/dismissed. Failed delivery should be logged and retried where the delivery mechanism supports it.

Preferences

Users can enable/disable categories and choose supported timing. Respect quiet hours if implemented.

Deep Links

A notification should open the related task, exam, class, attendance page or other relevant screen.

Rules

Avoid duplicate reminders. Do not send reminders for deleted/completed items when no longer relevant. Respect timezone.

Daily Summary

Summarize classes, pending tasks, upcoming exams/events and important warnings without inventing information.
